

Button Cell Batteries

WARNING! - KEEP BATTERIES OUT OF REACH OF CHILDREN

- o Swallowing may lead to serious injury in as little as 2 hours or death, due to chemical burns and potential perforation of the oesophagus
- o If you suspect your child has swallowed or inserted a button battery immediately call the 24-hour Poisons Information Centre on 13 11 26 for fast, expert advice
- o Examine devices and make sure the battery compartment is correctly secured, e.g. that the screw or other mechanical fastener is tightened. Do not use if compartment is not secure
- o Dispose of used button batteries immediately and safely. Flat batteries can still be dangerous
